

RITE NOW @ ROP

Hope Forest Academy group living staff recently were recognized by their peers and students for their hard work in earning their coach counselor certification through Tech 22 training completion. The training includes intensive review of key policies and procedures, demonstrated knowledge and expertise in protocols and successful completion of a written test. Certification recognizes the successful completion of this process through a formal pinning ceremony in which staff receive the Ram Head pin and the Coach Creed is read. At Hope Forest Academy, certified staff also received ROP mugs and a miniature stuffed RAM, and their accomplishment was celebrated with an all-site brunch.

Congratulations to the staff who have committed to excellence in youth care through completion of the certification process.
