

RITE NOW @ ROP

Hope Forest Academy recently completed a month-long staff and student celebration of Fall and Halloween. The first two weeks featured traditional fall treats such as apple pies, caramel apples, apple cider and caramel apple suckers. Staff and students combined their creative talents to build and decorate spooky scarecrows who took up residence on the front porch of the administration building.

The latter part of the month shifted to Halloween events with a fierce window decoration competition between departments and shifts. Other activities included a Halloween trivia contest, spider guessing game, pumpkin decorating, Halloween photo booth and candy.

The month-long event was the product of Hope Forest Academy's outstanding morale committee whose goal was to launch the holiday season with a barrage of staff appreciation and light-hearted activities. The committee plans to continue themed events throughout November and December.
